

YAIR BARAK

1973, Israel

Barak graduated from the Camera Obscura School of Art in Tel Aviv, Israel, and studied at the prestigious MFA program at Bard College in New York, USA. His work deals with the ambivalence that photography suggests. The images that he works with are tempting as well as potentially threatening. Whether the series deals with landscape or cultural rituals it is always in the space between the beauty and the trauma. He has also established the Photography Department in Minshar School of Art, Tel Aviv, Israel. Apart from his artistic practice, Barak is also a writer and a curator. His works appear in all major museums in Israel and important private collections worldwide.
